SCHOOL OF MEDICINE
DEPARTMENT OF PATHOLOGY AND ONCOLOGY

June 23, 1969

Harold Weisberg, Esq.,
Route 8, Frederick, Maryland.

Dear Harold:

Enclosed is Thermofax copy of recent letter of June 16 to Dick together with my own (now Copyrighted) picture of the back of CE 544 showing the scratches Dick called my attention to. I intend to have four copyrighted articles in my brief, all items from the acrhives, and done specifically for me at my request and for which I have a cancelled check.

It is not necessary to send me a picture of the back of CE 399, I have a special one made for me by the Archivist.

I have procrastinated too long on getting the appropriate Navy Regulations for disposal and proper keeping of medical records. About two years ago I had correspondence with the Chief of Medicine of the Navy in Washington on this. This was unrewarding, however, he did send me Xerox copies of Chapter 17 or 18(Ibelieve) from the "Medical Manual", which, of course, I already had. They do not give explicit directions or instructions on preservation of medical records which I know must exist somewhere. Last week I asked our librarian to obtain the appropriate manual(s) for me.

In this department we have a full Colonel, a Lieutenant Commander, and two senior Lieutenants (Navy) all reserve medical officers but none know of or have the regulations I want. The nearest Naval base is 20 miles out at Olathe, Kansas and to which I am a "consultant", at least on paper. However, the command there, including medical, do not view things my way and I do not want to irritate them. So, if you just happen to come upon the appropriate regulations please do run off a Xerox copy for me.

Have not received your photograpler's affidavit. If more mone is needed for Notary Fees or otherwise just mention it.

Jim
